with thorough case studies

Work Experience

UI/UX Design Intern at Henry Schein 09/2022 - 01/2023

- Collaborated with fellow designers to create a design system to modernize Dentrax Ascend, the cloud-based version of the most popular dental software, used by over 35,000 practices
- Analyzed customer data, trends, and user feedback on high-priority products and found common pain points to guide changes in designs for a better user experience
- Created series of questions and tasks for users to complete in usability studies to understand user needs and behaviors

UI/UX Design Intern at KeHE 06/2022 - 08/2022

- Leveraged KeHE's design system in creating pages on the enterprise application supporting seamless interaction between their network of 4,100 merchants and 8,500 brands
- Collaborated with the product owner, PMs, and front-end engineers as part of an agile scrum team with the goal of simplifying and modernizing KeHE's antiquated data processing system
- Led successful usability studies with real users and stakeholders which gave the team valuable insights on how to move forward with designs

UI/UX Design Intern at Clocky 09/2021 - 12/2021

- Single-handedly re-imagined Clocky's e-commerce website and the Clocky store page on Amazon as the sole designer at the startup
- Translated designs and ideas to the CEO and developers to create an engaging space that showcased all of Clocky's products in detail
- Experimented with alternative designs using A/B testing to determine the best method of increasing user engagement on Clocky's website

Related Experience

Content Committee at Creative X 04/2020 - 02/2023

- Wrote compelling and entertaining articles about design to an audience of hundreds of students and professionals as part of the content committee at Rutgers' design community
- Competed in CreateRU, the club's first designathon, and created a digital space for local bands to gain recognition in the New Brunswick area

Relevant Courses 09/2020 - 05/2023

- Human-Computer Interaction, Advanced Web Design, Structure of Information, Web and Internet Accessibility, Virtual Team Dynamics, Leadership in Digital Contexts
