HTML/CSS · JavaScript

Work Experience

UI/UX Design Intern | Henry Schein

09/2022 – 01/2023

- Collaborated with fellow designers to create a design system to modernize Dentrax Ascend, the cloud-based version of the most popular dental software, used by over 35,000 practices
- Analyzed user feedback on high-priority products and found pain points to guide data-driven, iterative, decisions in designs
- Created series of questions and tasks for users to complete in usability studies to understand user needs and behaviors

UI/UX Design Intern | KeHE Distributors

06/2022 – 08/2022

- Envisioned essential pages on the data management platform to support seamless interaction between KeHE's distribution network of 8,500 brands and 30,000 retailers
- Led successful usability studies with real users which gave the team valuable insights on the user journey
- Collaborated with product managers and engineers as part of an agile, cross-functional team for integral additions to KeHE's enterprise websites, all while leveraging the design system

UI/UX Design Intern | Clocky

09/2021 – 12/2021

- Single-handedly re-imagined Clocky's e-commerce website and Amazon store page as the sole designer at the startup
- Effectively presented designs and ideas to product leadership and the CEO to create an engaging space that thoroughly showcased all of Clocky's products
- Experimented with alternative designs using A/B testing to determine the best method of increasing user engagement

Related Experience

Content Committee | Creative X

04/2020 – 12/2022

- Wrote compelling and entertaining articles about design to an audience of hundreds of students and professionals as part of the content committee at Rutgers' design community
- Competed in CreateRU, the club's first designathon, and created a digital space for local bands to gain recognition using a thoroughly organized workflow
